

Noxudol 720

Waterborne rust preventive product

General

Noxudol 720 is a thixotropic, waterborne rust preventive product which after drying forms a soft grease similar film. The product is intended for customer with special demands for penetration and is drip free 10 minutes after application.

Range of application

Noxudol 720 is intended for the treatment of the hollow spaces of motor vehicles but can also be used as a transport- and storage protection.

Instructions for use

The object must be dry and totally free from oil- and grease remainder. Apply Noxudol 720 by spraying, brushing or dipping. The film must be dry before it will be exposed of wet or degree of frost.

Package

41700512 / 1-lit
41700408 / 20-lit can
41700722 / 208-lit barrel

Technical data

Color:	Beige
Consistency:	Thixotropic
Type of film:	Fatty
Density at 20° C:	990 ± 20 kg/m ³
Dry content:	35 ± 3 %
Dry film:	40 - 80µm
Application temperature:	15 - 25° C
Removal with:	Renox Milieu or white spirit
Storing time:	Max 12 months, must not freeze
Storing temperature:	5 - 35° C
